Course format

Working language :	English
Volume of contact hours :	27 h
Workload to be expected by the student :	108 h

Course track

Track : Attendance

"Attendance" track :

Attendance at lecture / tutorial classes and intermediate / final exams is mandatory. As evaluation of in class work constitutes an essential element of grading, any absence will be penalized and is taken into account for grading purposes (see academic rules and regulations).

"Autonomous" track :

Attendance at intermediate / final exams is mandatory, but students are free to attend lecture / tutorial classes.

For all Master programs and all other programs realized in the form of dual internships (apprentissage), attendance at lecture / tutorial classes and intermediate / final exams is entirely mandatory. Therefore, only the "Attendance" track can be selected.

Contribution of the course to the educational objectives of the programme

How the course contributes to the programme :

Description

After attending this course the students will identify the main financial statements and understand how to read them. They will follow the main steps of a basic financial analysis, compute and interpret key financial indicators to assess the financial situation of the business.

The content of this course is nearly identical to the course "Essential concepts in financial analysis" and close to the course "IFRS principles: the keys to understand the financial statements" (semester A).

You are allowed to register for only one of these three courses.

Educational organisation

Lectures

In groups

Case studies/texts

Learning outcomes

Upon completion of this course, students should be able to :

- **Recognize** the need for effective accounting systems
- **Describe** the contents of financial documents (income statement, balance sheet and cash flow statement), their underlying principles and their interdependencies
- **Indicate** the main steps to conduct a financial analysis (profitability, efficiency value creation and risk analysis)
- **Differentiate** between the different key performance indicators to highlight strengths and weaknesses of a firm's financial situation
- **Interpret** the main key financial indicators used while analysing accounts

Outline

This course will be constituted of 27 hours of lecture in class.

In parallel students will complement their knowledge while using the crossknowledge materials developed specifically on "financial statements" and "financial analysis". These materials include commented slide show sessions, quiz allowing student to test their knowledge and "essentials' sheets" summarizing key concepts.

The following concepts will be covered

I General introduction

II Financial statements

1. Profit and loss statement
2. Balance sheet
3. Cash flow statement
4. Relationships between financial statements

III Financial analysis

1. The need for financial analysis
2. Profitability analysis
3. Efficiency analysis

4. Performance analysis
5. Risk analysis
6. Conclusion: How to conduct a financial analysis?
